

SURYA PRAMANIK

Software Developer

Kolkata • 6295771697 • leosuryaof7@gmail.com • [GitHub](#) • [LinkedIn](#)

SUMMARY

Backend-focused Software Developer with 4+ years of Python experience and a track record of shipping live, production web applications using Django, PostgreSQL, and RESTful APIs. Built and deployed Trivasta, a live AI-powered travel platform with real users, integrated payments, and real-time WebSocket features. Strong in backend architecture, database design, and AI/LLM API integration.

SKILLS

Languages: Python, JavaScript

Backend & Frameworks: Django, Django REST Framework, Django Channels (WebSockets), Node.js

Databases: PostgreSQL, MySQL (basic)

APIs & Security: RESTful APIs, OAuth 2.0, Gmail API, Payment Gateway Integration, AI/LLM API Integration

Problem Solving: Data Structures & Algorithms, Analytical Thinking, Debugging

Tools: Git, GitHub, Postman

Currently Strengthening: Data Structures & Algorithms, CI/CD (GitHub Actions + pytest)

PROJECTS

Trivasta — AI-Powered Travel Planning & Booking Platform (Live)

2025 – Present

Tech Stack: Django, Python, PostgreSQL, Payment Gateway API, AI/LLM API

- Built and deployed a live travel-planning platform with 29+ active users and an onboarded agency partner
- Integrated a secure payment gateway to handle end-to-end booking transactions
- Implemented AI-powered trip planning using LLM API integration to generate personalized itineraries
- Built real-time seat/slot availability updates using Django Channels and WebSockets for a live, multi-user booking experience
- Designed and maintained the PostgreSQL schema for users, trips, bookings, and transactions

Live: trivasta.in | **Repo:** github.com/isurya7/trivasta

Zentry — Productivity & Social Web Application (In Development)

2025 – Present

Tech Stack: Django, Python, Gmail API, OAuth 2.0, PostgreSQL, HTML, CSS, JavaScript

- Designing a productivity platform integrating email management, task tracking, reminders, journaling, and social features
- Implemented Gmail API integration to surface unread and important emails
- Built secure authentication using OAuth 2.0

PitchMetrics — Real-Time Football Analytics Platform (In Development)

2025

Tech Stack: Django, Python, Bootstrap, PostgreSQL, Data Pipelining

- Building a football analytics platform tracking real-time and historical data across leagues, teams, players, and coaches
- Designed player statistics (xG, goals, assists, defensive actions) and team metrics (passes, shots, possession)
- Created a data ingestion and pipelining system to clean, organize, and analyze football data

Freelance Web Development

2024 – 2025

- Travelthirst — designed and delivered a multi-page website (home, about, contact, gallery) for a travel agency client, handling requirements, deployment, and revisions independently — travelthirst.in
- Saidabad Ujjal Sangha — designed and delivered a multi-page website (home, about, contact, gallery) for a local football club client — saidabadujjalsangha.com

WORK EXPERIENCE

Junior Developer Intern, Skill Vertex

June 2023 – August 2023

- Worked on web development tasks using JavaScript, PHP, and relational databases
- Collaborated remotely with mentors and team members to deliver assigned modules on time
- Assisted in backend logic implementation and database handling
- Awarded a Letter of Recommendation and Certificate of Completion for strong performance

EDUCATION

Bachelor of Computer Science and Engineering

June 2024 – June 2027

Techno India University

Specialization in Advanced Computer Engineering

Diploma in Computer Science and Technology

Sept 2021 – March 2024

Berhampore Polytechnic College
